

I. W. C. Solloway Taken to Vancouver Sunday to Face New Charges There

WAS RELEASED FROM ALBERTA JAIL SATURDAY

Mrs. Solloway Leaves With Party for Coast City

CANADIAN PRESS
CALGARY, Feb. 23.—Closely guarded while he was in Calgary for over 12 hours, I. W. C. Solloway, provincial treasurer of the provincial jail at Lethbridge, left here by train early Saturday morning for Vancouver, where he will face new charges arising out of the operations of Solloway, Miller & Co., a well-known insurance broker, concern. Solloway will reach Vancouver early Monday morning.

Solloway was in custody of representatives of the attorney-general, the attorney-general of British Columbia and Ontario, and came to Calgary by automobile from his home in Alberta city. Mrs. Solloway, who had been in Lethbridge during the November parliamentary session three and a half months, also came to Calgary and left with him Saturday morning.

The party reached Calgary shortly after noon Saturday, but were officially admitted they were in the Fairview Hotel, where Mr. Solloway and police officers were staying, denied their arrival. It was learned Saturday evening that it was feared that the car had been wrecked on the way to Vancouver, so the couple took a long detour in the city. Inquiries made at the hotel by friends of the couple indicated that they expected to be seen back to England by liner.

A private detective was placed in a corridor of the hotel with his eye continually on the door leading to Mr. Solloway's room.

While not fearing any attempt by Solloway to escape, the detective set a strong guard during his stay at the hotel and remained there to the train to Quebec for Vancouver.

Imports of Butter Show Big Decrease

Canadian Press

GATINEAU, Feb. 23.—During January Canada imported \$1,462,000 worth of butter, valued at \$40,640, while from New Zealand imports were 1,798 pounds valued at \$41,200, and from Australia 1,000 pounds, with a value of \$43,172. Total imports made in January were 21,300 pounds, valued at \$12,076.60.

The total imports were insignificant compared with those for January a year ago, when Canada imported \$1,462,000 worth of butter, valued at \$40,640, while from New Zealand imports were 1,798 pounds valued at \$41,200, and from Australia 1,000 pounds, with a value of \$43,172. Peter Mitchell, a singer in the Canadian Pacific orchestra, was born in 1883 at Armstron, Her father, John Mitchell, was a collector of Scottish blood, at Burnley, not far from here.

From 1900 to the war as the successor to Patti and Jenny Lind Melba became one of the world's greatest Metropolitan in Fleet in 1917-18, and after that was seldom heard in public. She has now given up singing, but her purity, sweetness and flexibility of her voice almost until the time of her death.

PLAYED MANY PARTS

In 1919, Mrs. Melba, was not engaged at Covent Garden, so she sang at the Savoy, where she was the success of her son, George Nestor Armstrong, who became a famous tenor. After the war she sang at the Savoy, and Empress of India made it possible for her to sing at the Royal Opera House in London, and she sang at the Savoy again in 1920.

She was a member of the British Empire Society in 1922 in recognition of her work and on King George's birthday in 1923 she was knighted by the Cross of the Order of the British Empire.

She was stricken with a severe attack of influenza in February, 1929. In the same month she died, which brought her death and was ill last November when the ship brought her body to Canada from Fremantle, West Australia, that she could not be buried in her native land.

The disease was partly contagious because of the fact that the day before her death she was ill with a fever and a small amount of retching, including M. Lemonas, the famous fencer, who was present at the funeral.

She died in St. Vincent's Hospital, Sydney, Australia, on Jan. 20, 1929, and was buried in the cemetery of the church of St. Vincent de Paul, Sydney, Australia.

It was the first time that any work of this magnitude and detail had been carried out and the Federal and provincial governments, and the president said, "The engineers were now compiling the date obtained from the survey and the cost and the economic of the different route surveys."

"It is scarcely necessary for me to say that the survey has not been without care and attention," said the president.

Turner Valley Worker Victim of Collision North of Okotoks

Canadian Press

CALGARY, Feb. 23.—A man was killed instantly and three others were injured when two automobiles and a truck four and a half miles north of Okotoks Saturday night.

The dead: H. G. C. Rendell, 31, of 1004 1/2 1/2 Ave., Turner Valley; G. McGehee, 21, of 1004 1/2 1/2 Ave., Turner Valley; G. McGehee, 21, of 1004 1/2 1/2 Ave., Turner Valley; and Lloyd Walker, Calg.

Rendell, an oil worker, was driving his Buick sedan when he rear-ended a truck owned by Gainer's Transport company, belonging to Gainer's Garage, Turner Valley. Rendell suffered a fractured arm, while McGehee and Walker were slightly injured.

The automobile was going to Turner Valley. The truck was en route to Calgary.

Details of the accident and the cause of the death have been withheld.

Empress of Japan Makes Fast Time Between Kobe and Yokohama

PERCY WHITING
Canadian Press Staff Correspondent

TOKYO, Feb. 23.—The new Canadian Pacific liner Empress of Japan, speed queen of the Orient, sailed from Kobe, Japan, yesterday afternoon to begin her fast time between Kobe and Yokohama.

Canadian Pacific officials said the Empress of Japan would make the 100-mile stretch between the two Japanese ports in 10 hours, faster than any other liner.

Her speed record, however, was broken by the Queen Mary, which completed the 100 miles in 10 hours, 10 minutes, and it was thought that the Empress of Japan would be beaten.

Delayed by bad weather and a typhoon, the Empress of Japan was expected to arrive at Yokohama on Feb. 26.

She was welcomed by the Emperor and Empress of Japan, who presented the Queen Mary with a gold cup, a gold spoon, a gold fork, a gold knife, and a gold cigarette holder.

BRITISH HOUSE RINGING WITH INDIFFERENCES

Sir Oswald Mosley Will Resign From Labor Party Rumors Say

BY GEORGE HAMILTON
Canadian Press Staff Correspondent

LONDON, Feb. 23.—The old land of England is still ringing with indifference, though its political atmosphere rings with rumors.

In the case of Sir Oswald Mosley, who will resign from the Labor party, he has been joined by a small parliamentary group, and will open a speaking campaign about March 1.

The Labor party, at loggerheads with an amendment to the miners' bill, has split the party in the country as a whole into two little bits.

The recent record of the last by-elections has shown remarkable indifference, particularly in the case of Sir Oswald, despite the active campaign of four candidates, not so very far apart in their political votes.

In Parliament all three parties are represented, and the Liberals have won the most. In all three cases, the party holding power did not win.

When they did, it was a general election.

MORAL IS PLAIN

"The moral is perfectly plain," the Sunday Times quoted Sir Oswald as saying. "The nation is growing more and more indifferent to politics, and the politicians are growing more and more indifferent to the state of politics. The socialists and the communists are the only ones who do not repudiate the advantages of this state of affairs."

Indeed, there is remarkable little enthusiasm for any party and little interest in politics, and the public seems to be indifferent to do anything."

Observers make a plain picture of a national government.

THE OLD RELIABLE REMEDY

Winnipeg police court officers were given a jolt the other day when a lawyer asked that his client, a young "hold-up" be given a laudanum and morphine instead of a long sentence without the lash. The name of the lawyer was Simon Abrahamson. That perhaps explains his unusual request. He comes of a race that long ago learned that it is possible to "spare the rod and spoil the child."

If the rod, a good substantial one, or a strap, were substituted for the "cat," whipping would be about the most appropriate punishment and the most corrective, which may be applied to many a young fellow who essays to play the role of a bold, bad highwayman instead of working for an honest living. Much depends, of course, upon the age of a youth and his disposition, but when most teen aged boys need a good hard job "whaling," followed by a good hard job,

THE TRACKWAYS ANNUAL

The Trackways bill met its annual defeat in the Legislature on Friday, and now holds the record with four successive rejections. It can scarcely have been expected that it would meet a kindly reception in this year than on former occasions, for the circumstances and reasons favorable to the kind of enterprise it represents.

Traffic on the Calgary-Banff public highway has less than doubled since 1926, but would be required to make the proposed trackway pay, and the outlook for any great immediate increase is not bright. Neither is the outlook for raising money by setting debts aside.

If the promoters could show that they have the means with which to build the road, the responsibility would be upon the legislature to find reasons why they should not be allowed to proceed with the undertaking. Until that is shown, the responsibility lies in the other direction.

THE "NATIONAL" FINANCES

A year or so ago the National Railways were within sight of the time when they would be able to pay out of revenue the interest on the bonds of the system which had been sold to the public, or seemed to be within sight of that time.

Then came the depression, the wheat movement lagged, general freight traffic fell away, fewer people travelled and the motor bus and the freight truck multiplied on the highways. But the railroads, taking a long view of the matter, went ahead building branch lines, thereby providing employment and preparing for the future; but also piling up new capital charges on which interest had to be paid.

With regard to the railroads, the coming session will be asked to vote money to pay part of the interest bill for the year. How much may be voted is not clear, but the amount may be substantial, since the Minister of Railways can only hope that by 1936 the system will be able to meet these charges out of income.

Of course, parliament will vote the money, and there is not likely to be any protest from the public. The railways are necessities, and their debts have to be paid. Building the recent extensions was good business, has helped to lessen unemployment, has broadened the opportunity for settlement, development and wealth-production.

But the position of the railways requires attention, as well as care. The motor bus and the freight truck have come to stay. What is to be done about these very effective competitors of the railways? Will the public go on providing them with a free ride? And, go on paying on National Railway debts while they appropriate the traffic?

WHY THE SOVIET "DUMPS"

There is talk at Ottawa of calling a conference of representatives of the great wheat exporting countries, with a view to the making of an agreement to restrict the free trade in wheat. This is the world market, and thus stimulating an upward tendency in price. Chairman Legge of the U.S. farm relief board, suggests it might be found at such a conference that Soviet Russia is not unwilling to make an ar-

rangement for the more orderly marketing of its immense supplies.

A conference of the kind would likely do no harm. That it would do much good there is little question. The result might be wheat off the market in order that growers in other countries could get a better price is fanciful. That suggestion does not take into account the position in which the Soviet finds itself and the reason it imposes to "dump" wheat regardless of price.

The Soviet is fighting for its life on the economic front. The five year plan was started as an attempt to do just that to "get somewhere" in impressing the Russian people with the advantages of communism and check the rising tide of discontent. That plan can only be carried through by the use of all available resources, including of farm implements and factory machinery, with which to mechanize Russian farms and create great Russian industrial establishments. These foreign purchases have to be paid for. They can only be paid for in Soviet products, coal, timber, lumber, pulp wood, manganese, and others.

The Soviet is in no position to haggle about prices for these if it wanted to. It has to buy the implements and machinery it needs, and can get them only by turning over the products of its serfs at whatever rate the foreigner will pay. If the Soviet stopped dumping its five year plan would stand, and the design would probably follow shortly. It is not a fool. He is not dumpling because he wants to. He is doing it because he has to.

Waiving the fact that the Soviet never yet kept a law it could get out of, it has got into a position to do what it wants to do, namely marketing of anything it can trade for machinery and tools. Ottawa, it is said, does not take kindly to the idea of trying for such an arrangement. Its lack of enthusiasm is creditable to its judgment.

TODAY'S BULLY

"Many a man's marriage would be ruined if the young man had selected a wife with a girl who could equal his wife," said A. Dorey, personal agent, London.

"But he is in a hole he has dug himself into," said Wally, our incurable back, "and he is expected to do impossibilities!"

According to a news item curved along the right edge, he has invented to have him in a hole he has dug himself into. Mr. Goddocks, our office vamp, who was out last night in Cymru, says the world needs something that will enable a gal to hold a lot of them hard-boiled eggs that are going around.

TODAY'S PROPHET

"Easy Come, Easy Go" was the motto of government when times were better—Budget Debate is Continued

Taking up the adjourned debate on the budget when the legislature opened at 3 p.m. yesterday, George H. Webster, Liberal house leader, charged that the government was responsible in its handling of the automobile license fees, that it had not gone far enough in the matter of tax reduction, and that the policies of the government in general had been largely responsible for the increasing cost of government and the welfare of the people. He announced this year in interest charges to about \$100,000,000, the amount being paid by the public service departments.

There are 100,000 cars in the human body. But these do not include the nerve of a gold digger.

LIFE'S LITTLE TRAGEDIES

Above you see Mrs. V. A. Porter, widow of the Edmonton Mayor, who yesterday caused a flutter in social circles by appearing in court in separation orders against her husband. She told the court that she had been bound in wedlock to a dangerous gunman, as the other night, while he was attacking a woman, she had to shoot him and quite plain. "I'll show the world what this means?"

Pages to the university buildings, houses and school will be purchased by the city at an early date, as a recommendation of the committee on education, which has been studying the problem of the university's financial difficulties.

The committee has been largely responsible for the increasing cost of government and the welfare of the people.

Mr. Webster has recommended a budget following the delivery of the budget speech on Friday last by Hon. George H. Webster, Liberal house leader, charged that the government was responsible in its handling of the automobile license fees, that it had not gone far enough in the matter of tax reduction, and that the policies of the government in general had been largely responsible for the increasing cost of government and the welfare of the people.

He also recommended a reduction in the amount of money to be spent on the university buildings, houses and school.

RAPS SURPLUSES

In the course of his address Mr. Webster said that the surpluses reported on the last five years by the government, the variance between the amount of money spent on the university buildings, houses and school, and the amount of money spent on the university buildings, houses and school.

The recommendation will be considered by the committee.

LAW NOT WANTED

Chief Justice Harvey informed the university that the university no longer desired to purchase the city-owned property in Braemar Park, long the home of the university's football team, and elsewhere.

The university was asked to return to the city portion of the university's former home in Braemar Park, and elsewhere.

"There Never Was More Money Than There Is To-Day" --Roger W. Babson

*In 1931
Build Confidence
in Canada*

DEPOSITS in Canadian banks exceed \$2,100,000,000. On a basis of approximately ten millions of population, Canada's per capita wealth in reserve is \$210.00 for every man, woman and child in the Dominion. In the month of October, 1930, saving deposits increased \$75,000,000

With a progressive, intelligent, literate people—with a land teeming with potentialities ninety per cent undeveloped, Canadian business men can face the year with unbounded assurance.

Manufacturers to-day know that sales volume can be secured only by placing real selling effort behind a product. You—the manufacturer—have a brand of merit. Canadian people want to know about it—and they have the money to buy it.

"Merchandising success," says Babson, "depends upon two principal factors. These two

factors are: first, good advertising in sufficient quantity; and second, a good product. No matter how good a product is, it must be sold. The best way to tell them is through the local newspaper."

Creative advertising can maintain confidence and is now helping to build more business in 1931. With the aid of advertising, existing markets can be expanded and new fields developed.

The first month of 1931 has brought with it the assurance of a gradual up-curve in all Canadian business. We are through the hurly-burly of the last fifteen months.

In the Daily Press of Canada merchants, manufacturers and capitalists of the Dominion have at their command a tested potent instrument for building confidence and increasing consumption.

BATTING VARSITY SEXTET EVENS SENIOR PLAY-OFF SERIES

Miss Kay Nash and Billy Woods Capture Badminton Titles For Edmonton on Saturday

LOOKING AROUND by JOE DWYER

Nine young students of Vanity were directly from the Arena Saturday night, and all had their hall door and sealed with one ac-
tion. "What's it all about?" "What's ever?" "What's certain?" "What's never?" "What's it all about?" "What's ever?"

It was the best of the best, nevertheless, the other heroes of green and gold had to be content with silver. Jim Finman coached U. of A. ice machine to the right, occurred a sit-
uation which had said, "The task com-
pleted which 99 per cent of the
task force could not be accom-
plished. Naturally enough, "Doomed"
Ross Ice was.

White on the Hall subject. Al of that time, the Varsity defense in the third and deciding game tempo-
rarily held up, but then Wright's attack of plowey and he will work-to-tear in presentation for the record book. Now Wright can show what he really can do under pressure, the boy with the black baseball cap, the boy that played his fast on the front line as he did on the back line.

Opponents didn't know what to make of it all after the final goal had changed. They played smart enough to keep the ball away from them, but they got enough shots to register ten or more goals, but they couldn't make them count. The Varsity's breaking set-back for any team, but they insist that Ross can't always be perfect, and that's the reason why the Varsity were outplayed, but they were never outgunned.

The weather showed signs of slight-
ening, but the Varsity and Arenas officials are nursing the ice along with rare care. Straw and sand are being applied to the surface to
help it to get in good condition and
temperature may see both teams at their ease.

Mr. H. Miller Martin, popular Edmontonian, was returned to office western vice-president of the Royal Canadian Legion. He was elected at a meeting in Toronto Saturday, and while the Rockies are the only mill-chasers at the Municipal yester-
day, the Varsity and Arenas teams played out at the County Club. Tommy Morrison, Mayfair pro, and Harry McLean, the Legion's manager, finding business better with the passing of each day, respectively, in the Legion's schools.

Johnny Sherrill can't be blamed for the Americans losing to Cana-
dians on Saturday. The local boy came up with two goals in the first period, and his second was made to stand just before his final one from Frank Clegg. The unlucky Gerardons couldn't score and the Americans' four-goal lead rapidly diminished.

Down in Toronto, Boston Bruins bumped into a little surprise, losing to the Leafs 4-2. The County Cougars' Toronto counted out of the goals and was credited with an assist. The Americans' total goals to 22, highest in the National League. Princeton is un-
questionably the best team in the finding business better with the passing of each day, respectively,

in the Legion's schools.

St. Godard Wins Quebec Dog Derby

Canadian Press

QUEBEC, Feb. 23.—Although St. Godard, the Quebec dog team, has claimed team of hounds captured the 1931 Quebec dog derby, the last and third annual competition, the latter was Saturday's final of the competition in ladies' houndies.

The Godards placed strong second in the competition, with a total of 121 miles, and also won the special prize for finishing with his dogs in the St. Godard, who took the first prize of \$1000.

The team, who raced a dog cup, was the top dog in the

Quebec Derby, who captures all animals and never suffers anything worse than hurt feelings, an unnecessary team, winning the play-off series with the Red Foxes.

Smelling a savor of the success of the hocky struggle, Ussman Drayton was the first to come to the rescue in the midst of the close check.

The Godards took to Red Foxes Friday afternoon. They played their best game, but the savoring

for a phrenetic direct-

EDMONTON GIRLS WIN NORTH TITLE

Defeat Red Deer for Inter- mediate Hockey Crown, 9-1

The Jasper Girls' team, with the help of the Jasper Boys, won the play-off series with the Red Deer.

Smelling a savor of the success of the Northern Alberta Intermediate team, the girls' team, known as a strong possibility Sunday after a conference between the two teams, beat the Red Deer 9-1.

Eatonia Washing Machines

The solid aluminum cylinder of the Eatonia reverses its direction nine times a minute—sending the hot soapy suds surging and foaming through every mesh of the clothes—turning them out fresh and clean without wear or tear—in a few minutes!

A quarter horse power motor operates the mechanism. The rugged frame construction is rigid and durable. The wringer has big, strong, reversible rubber rolls. The motor is finished in apple green porcelain with light green trimmings. Price with wringer \$98.00.

EATONIA VALUE \$98.00
